Drivers must carry out the 'Pending Registration' process on the radio and continue their journey.

**GSM-R FAULTS AND FAILURES RESPONSE**

**VERSION 1.1**

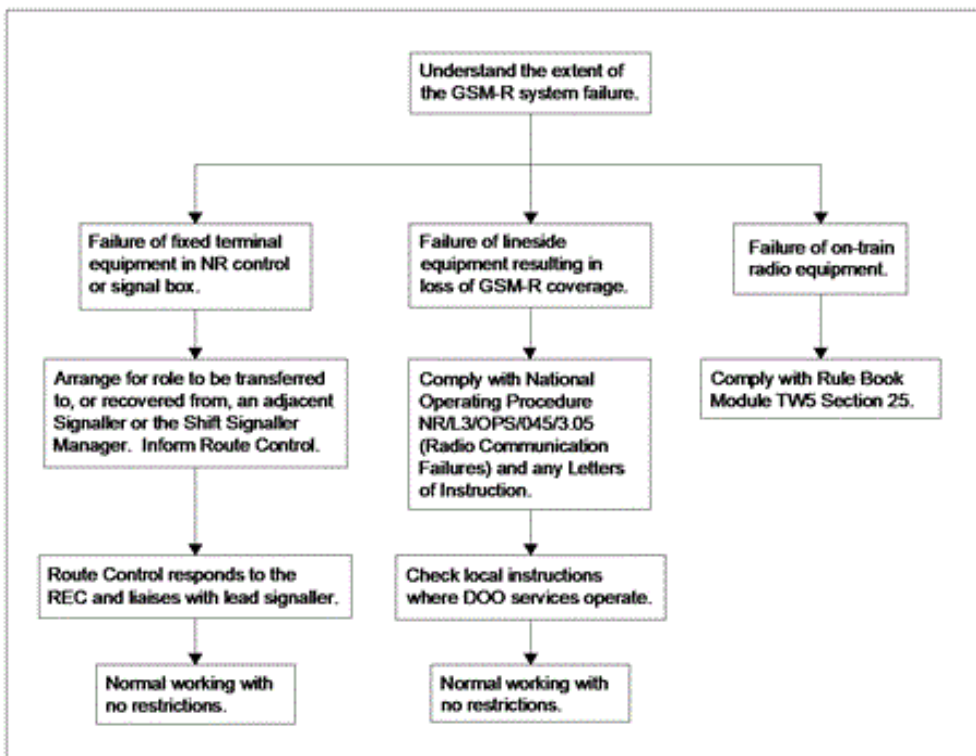

**PURPOSE**

To provide guidance on the response to onboard GSM-R system faults and local/area infrastructure faults.

Appendix covers the response to system faults from a single fixed terminal through to failures of the infrastructure resulting in loss of coverage in a geographical area.

**APPENDIX**

This chart details the process used by Network Rail Control to determine the operating response to GSM-R service or sub-system failures.

**MISCELLANEOUS INSTRUCTIONS – Continued****SECTIONAL APPENDIX FEEDBACK (SAF) FORM QR CODE**

The Sectional Appendix Feedback (SAF) Form is designed for reporting anomalies in the National Electronic Sectional Appendix (NESA), paper copy Sectional Appendices, or other format (e.g. PDF file) Sectional Appendices.

It provides a structured way to log, investigate, and resolve errors. Examples may include:

- Differences between what is published in NESA and in the corresponding paper copy Sectional Appendix
- Differences between what is published and what is provided on the network (e.g. speed change commencing at a different mileage, platform lengths longer or shorter than what is published).

If the QR code is not working, please use this link here to access the form:

[networkrail-networkcapabilityupdatetool.oncreate.app/w/webpage/141GBPTP1](https://networkrail-networkcapabilityupdatetool.oncreate.app/w/webpage/141GBPTP1)

When to use Rail Notices

<https://www.railnotices.net/CommonInterface/Default.aspx>

Use Rail Notices for planned changes to infrastructure. Examples:

- New or altered infrastructure (e.g. junction renewals, changes to signals, electrification, line speed changes).
- Permanent withdrawal of capability (e.g. plain-lining, temporary speed restriction converted to a permanent speed restriction).

REMEMBER that any proposed changes to infrastructure capability, track layout, speeds, etc. MUST first be established through industry consultation via the Network Change process.

If you are unsure of which is the appropriate process to use, then please use this Sectional Appendix Feedback Form and a WON Approver will be in touch to provide further guidance.

**MISCELLANEOUS INSTRUCTIONS – Continued****MISCELLANEOUS INSTRUCTIONS****REPLACEMENT OF DOO STATION EQUIPMENT AT KENT ROUTE STATIONS****FROM WEDNESDAY 01 MAY 2024 UNTIL WEDNESDAY 01 MAY 2028****\*\*\*PLEASE NOTE THE END DATE HAS BEEN EXTENDED SINCE FIRST PUBLISHED\*\*\***

Driver Only Operation (DOO) equipment is gradually being replaced. The work mainly entails replacement of monitors and occasionally metalwork such as camera housings and monitor housings with new units at Kent route stations

Work will be undertaken between trains booked to call, or during white periods overnight.

Any queries should be directed to either Darren Goodall, or Doug Mackenzie – NR DOO Section Managers Kent.

**WEEDSPRAYING TRAINS IN OPERATION****FROM MONDAY 9 MARCH 2026 UNTIL MONDAY 31 AUGUST 2026**

In 2026 multi-purpose vehicles (MPVs) and Envu (previously Bayer) trains will be delivering the national train-borne weed spray programme.

**If any staff are on or near the line when a Weed Control Train approaches, they should take the following action:**

- On the approach of the Weed Control Train staff must acknowledge and move to a position of safety
- Remain in the position of safety; **Make themselves visible** to the Weed Control Train. If the spray operators can see anyone who is working in the vicinity, they will suspend spraying as they pass the site.
- Staff should not 'hide' behind bushes in an attempt to avoid being sprayed. In such cases the spray operators may not see staff and the spray jets are specifically designed to penetrate bushes.

**The herbicides deployed by the Weed Control Train are biodegradable, non-irritant and non-harmful at the low concentrations used. In the unlikely event that staff are sprayed accidentally it is recommended that they take the following actions:**

1. If the eyes have been sprayed, rinse immediately with clean, water for 15 minutes and obtain medical aid if any discomfort is felt thereafter.
2. Rinse any exposed skin with clean water and wash with soap and water afterwards.
3. Avoid eating, drinking, or smoking until this procedure has been carried out.
4. Change any sprayed clothing at the earliest convenient time and retain in a plastic bag for collection.
5. Report the incident to the Route Operations Control.
6. Should any member of staff be sprayed they may obtain advice from SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
7. If you have any medical concerns, please call the non-emergency NHS number – 111.

**Should any member of staff require any further information or advice please contact:**
