**SECTION A - TEMPORARY SPEED RESTRICTIONS**

(Until further notice unless otherwise specified)

Warning Boards and Indicators provided unless otherwise shown.

† Indicates that the Warning Boards and Indicators will be moved as the work progresses. Where two speeds are shown for a restriction e.g.  $\frac{20}{40}$  the Rule Book Module SP, Section 4.3, (differential speed restrictions) applies.

**SECTION B - ENGINEERING ARRANGEMENTS.**

At or Between	Lines Affected	Remarks
---------------	----------------	---------

Normally, signals are used to mark possession protection limits. Where points have to be used, this will be signified by the suffix "pts".

Detonator protection for possessions arranged under Rule Book Module T3 must normally be placed at 400 metres beyond the protecting signal (or points or through crossings beyond the protecting signal) at the start of the possession and 400 metres on the approach to the signal (or points or through crossings) at the exit from the possession. Where this distance cannot be obtained, the detonator protection must be placed at the greatest distance possible from the signal (or points or through crossings) concerned.

Where detonator protection has to be placed at less than the required 400 metres beyond the possession protecting signal (or points or through crossings) at the start of the possession or protection has to be placed at less than the required 400 metres on the approach to the signal (or points or through crossings) beyond the possession, then this will be indicated by a # symbol following the signal or points number quoted in the PROTECTION LIMITS.

(D17773) (20/03/2021) (UFN)

**MODULE LNW(S) 2 LOCAL INSTRUCTIONS**

**Hard copy Sectional Appendix page 242**

**Explanation of change:** Correct GB Railfreight Person in Charge of Sidings to GB Railfreight Person In Charge (GBRf PIC).

**Amend** The Working in the Middle Sidings section and the following sections as follows:

**MD101 - EUSTON TO ARMITAGE JUNCTION (EXCLUSIVE)**  
**EUSTON**

**Working in the Middle Sidings.** After working trains into the Middle Siding or Middle Sidings 1 and 2. Drivers of departing locomotives must await instructions from the Signaller at Wembley Mainline SCC before moving towards the exit signal.

Drivers taking over locomotives or trains in the Middle Sidings must obtain permission to move, by telephone, from the Signaller at Wembley Mainline SCC.

**Working in to HS2 Works Siding 1. Arrivals.**

Prior to departure of a Materials by Rail train that is planned to travel to HS2 Work Siding 1 (Euston) from Wembley/Willesden or Kilburn Up & Down Goods Loop, the Wembley Mainline SCC Signaller must advise the GB Railfreight Person In Charge (GBRf PIC) of the reporting number of the train and request acceptance of the train.

Before accepting the train, the GBRf PIC must ensure that the Siding is clear of any staff or obstructions.

When satisfied the above requirements are met, the GBRf PIC must operate the Shunters Acceptance Release to the 'OFF' Position to accept the train and confirm that the train is accepted for arrival.

Once the GBRf PIC has given the appropriate Shunters Acceptance Release and the slot light is illuminated to the Signaller, the Wembley Main Line Signallers can enable the Material by Rail service to depart from the Wembley/Willesden stabling areas or Kilburn Up & Down Goods Loop for London Euston HS2 Siding 1.

When the HS2 Materials By Rail Train has arrived into the HS2 Works Siding 1 the GBRf PIC must return the Shunters Acceptance Release to the 'ON' position. The PIC will provide the driver of the arriving train with a walkie-talkie radio.

When the HS2 Materials By Rail Train has arrived on the HS2 Works Siding 1, the Leading Locomotive into Euston must be shut down as soon as practicable to reduce noise and air pollution within the station. GBRf staff will apply the relevant train handbrakes to formally secure the train.

Once the train is secured, a Network Rail COSS will place 'NOT to be MOVED' boards on each locomotive cab end. The Network Rail COSS will then contact Wembley Mainline SCC Euston Panel signaller to request a Possession of Sidings for WS1. Once granted, work may commence to load the train. The GBRF PIC will then follow the pre-agreed Method of Work in conjunction with the Sidings Possession.

**Departures.** All HS2 Materials By Rail Trains must be ready to depart 15 minutes before the booked departure time. Once the loading operation has been completed, the Network Rail COSS will contact Wembley Mainline SCC Euston Panel signaller to hand back/cancel the Possession of Sidings for WS1. The COSS will arrange for the removal of the 'NOT to be MOVED' boards from each locomotive cab end. The GBRf PIC will contact the Wembley Main Line Euston Panel Signaller when the HS2 Materials By Rail Train is ready to depart to advise of; the train reporting number; that the driver is onboard ready to depart; and any other relevant details. The Wembley Main Line Signaller will interpose the Train Reporting Number In the appropriate Train Descriptor berth.

Prior to any departure, the GBRf PIC must undertake sufficient pre-departure checks, in line with relevant standards (see Section 7), to ensure that no materials spill from the wagons onto the network. This will be subject to independent checks as and when required by Network Rail. When ready to depart, the driver of the MBR train will hand back the walkie-talkie radio to the GBRf PIC.

(Item Continued on Next Page)

**SECTION D – GENERAL INSTRUCTIONS AND NOTICES**

**\*\* Items marked thus will not appear in future issues and a note must be taken of them by all concerned**

A thick vertical line denotes new or amended items

**AMENDMENTS TO OPERATING PUBLICATIONS – Continued****NETWORK RAIL LONDON NORTH WESTERN SOUTH ROUTE SECTIONAL APPENDIX**

**DATED 02 DECEMBER 2006 – Continued**

**MODULE LNW(S) 2 LOCAL INSTRUCTIONS Continued****MD101 - EUSTON TO ARMITAGE JUNCTION (EXCLUSIVE) – Continued**

When the train is ready to depart from HS2 Siding 1, the GBRf PIC must contact the Wembley Main Line Signaller and confirm the train reporting number; that the driver is onboard ready to depart; and any other relevant details. The Wembley Main Line Signaller must interpose the Train Reporting Number In the appropriate Train Describer berth.

Before setting the route for the train to depart from HS2 Siding 1, the Wembley Main Line Euston Panel Signaller must advise the Wembley Main Line Willesden Panel Signaller that there is a HS2 Materials By Rail Train ready to depart for Wembley/Willesden stabling areas and confirm it can be accepted.

**Working of Class 253/254 trains.** Class 253/254 trains are prohibited from using platforms 1 to 3, 8 to 11 and 16.

The Driver of a Class 253/254 train entering platforms 4 to 7 or 12 to 15 must not proceed beyond the 'HST Stop' Board at the South end of the platform. Immediately upon arrival in the platform, the leading power car must be shut down and not restarted until 10 minutes before expected departure time.
