SECTION B - ENGINEERING ARRANGEMENTS.

At or Between	Lines Affected	Remarks
---------------	----------------	---------

Normally, signals are used to mark possession protection limits. Where points have to be used, this will be signified by the suffix "pts".

Detonator protection for possessions arranged under Rule Book Module T3 must normally be placed at 400 metres beyond the protecting signal (or points or through crossings beyond the protecting signal) at the start of the possession and 400 metres on the approach to the signal (or points or through crossings) at the exit from the possession. Where this distance cannot be obtained, the detonator protection must be placed at the greatest distance possible from the signal (or points or through crossings) concerned.

Where detonator protection has to be placed at less than the required 400 metres beyond the possession protecting signal (or points or through crossings) at the start of the possession or protection has to be placed at less than the required 400 metres on the approach to the signal (or points or through crossings) beyond the possession, then this will be indicated by a # symbol following the signal or points number quoted in the PROTECTION LIMITS.

WEED SPRAYING TRAINS IN OPERATION**FROM MONDAY 9 MARCH 2026 UNTIL MONDAY 31 AUGUST 2026**

In 2026 multi-purpose vehicles (MPVs) and Envu (previously Bayer) trains will be delivering the national train-borne weed spray programme.

If any staff are on or near the line when a Weed Control Train approaches, they should take the following action:

- On the approach of the Weed Control Train staff must acknowledge and move to a position of safety
- Remain in the position of safety; **Make themselves visible** to the Weed Control Train. If the spray operators can see anyone who is working in the vicinity, they will suspend spraying as they pass the site.
- Staff should not 'hide' behind bushes in an attempt to avoid being sprayed. In such cases the spray operators may not see staff and the spray jets are specifically designed to penetrate bushes.

The herbicides deployed by the Weed Control Train are biodegradable, non-irritant and non-harmful at the low concentrations used. In the unlikely event that staff are sprayed accidentally it is recommended that they take the following actions:

- If the eyes have been sprayed, rinse immediately with clean, water for 15 minutes and obtain medical aid if any discomfort is felt thereafter.
- Rinse any exposed skin with clean water and wash with soap and water afterwards.
- Avoid eating, drinking, or smoking until this procedure has been carried out.
- Change any sprayed clothing at the earliest convenient time and retain in a plastic bag for collection.
- Report the incident to the Route Operations Control.
- Should any member of staff be sprayed they may obtain advice from SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
- If you have any medical concerns, please call the non-emergency NHS number – 111.

Should any member of staff require any further information or advice please contact:

NOTICES AND AMENDMENTS BY LINE OF ROUTE – Continued****CHANGEOVER TO BRITISH SUMMER TIME (BST) 2026**

Greenwich Mean Time (GMT) will cease to operate as from 01:00 hours Greenwich Mean Time on Sunday 29th March 2026 when British Summer Time (BST) will commence and in connection therewith, the following instructions must be carefully observed:

1. Adjustment of clocks on Railway Premises

The Signaller on duty in signal boxes (and other places where a night staff is employed) to be instructed that at 01:00 hours Greenwich Mean Time on Sunday 29th March 2026 clocks must be set to 02:00 hours by putting the hands forwards by one hour. At places which will be closed at the time the change operates, the clocks must be altered by the person who is last on duty on the preceding day (Saturday 28th March 2026).

Clocks electrically controlled are to be adjusted by the staff who usually attend to them.

2. Train Services

SECTIONAL APPENDIX FEEDBACK (SAF) FORM QR CODE

The Sectional Appendix Feedback (SAF) Form is designed for reporting anomalies in the National Electronic Sectional Appendix (NESA), paper copy Sectional Appendices, or other format (e.g. PDF file) Sectional Appendices.

It provides a structured way to log, investigate, and resolve errors. Examples may include:

- Differences between what is published in NESA and in the corresponding paper copy Sectional Appendix
- Differences between what is published and what is provided on the network (e.g. speed change commencing at a different mileage, platform lengths longer or shorter than what is published).

If the QR code is not working, please use this link here to access the form:

networkrail-networkcapabilityupdatetool.oncreate.app/w/webpage/141GBPTP1

When to use Rail Notices

<https://www.railnotices.net/CommonInterface/Default.aspx>

Use Rail Notices for planned changes to infrastructure. Examples:

- New or altered infrastructure (e.g. junction renewals, changes to signals, electrification, line speed changes).
- Permanent withdrawal of capability (e.g. plain-lining, temporary speed restriction converted to a permanent speed restriction).

REMEMBER that any proposed changes to infrastructure capability, track layout, speeds, etc. MUST first be established through industry consultation via the Network Change process.

If you are unsure of which is the appropriate process to use, then please use this Sectional Appendix Feedback Form and a WON Approver will be in touch to provide further guidance.

WEEDSPRAYING TRAINS IN OPERATION**FROM MONDAY 9 MARCH 2026 UNTIL MONDAY 31 AUGUST 2026**

In 2026 multi-purpose vehicles (MPVs) and Envu (previously Bayer) trains will be delivering the national train-borne weed spray programme.

If any staff are on or near the line when a Weed Control Train approaches, they should take the following action:

- On the approach of the Weed Control Train staff must acknowledge and move to a position of safety
- Remain in the position of safety; **Make themselves visible** to the Weed Control Train. If the spray operators can see anyone who is working in the vicinity, they will suspend spraying as they pass the site.
- Staff should not 'hide' behind bushes in an attempt to avoid being sprayed. In such cases the spray operators may not see staff and the spray jets are specifically designed to penetrate bushes.

The herbicides deployed by the Weed Control Train are biodegradable, non-irritant and non-harmful at the low concentrations used. In the unlikely event that staff are sprayed accidentally it is recommended that they take the following actions:

- If the eyes have been sprayed, rinse immediately with clean, water for 15 minutes and obtain medical aid if any discomfort is felt thereafter.
- Rinse any exposed skin with clean water and wash with soap and water afterwards.
- Avoid eating, drinking, or smoking until this procedure has been carried out.
- Change any sprayed clothing at the earliest convenient time and retain in a plastic bag for collection.
- Report the incident to the Route Operations Control.
- Should any member of staff be sprayed they may obtain advice from SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
- If you have any medical concerns, please call the non-emergency NHS number – 111.

Should any member of staff require any further information or advice please contact:
