SECTION B - ENGINEERING ARRANGEMENTS.

At or Between	Lines Affected	Remarks
---------------	----------------	---------

Normally, signals are used to mark possession protection limits. Where points have to be used, this will be signified by the suffix "pts".

Detonator protection for possessions arranged under Rule Book Module T3 must normally be placed at 400 metres beyond the protecting signal (or points or through crossings beyond the protecting signal) at the start of the possession and 400 metres on the approach to the signal (or points or through crossings) at the exit from the possession. Where this distance cannot be obtained, the detonator protection must be placed at the greatest distance possible from the signal (or points or through crossings) concerned.

Where detonator protection has to be placed at less than the required 400 metres beyond the possession protecting signal (or points or through crossings) at the start of the possession or protection has to be placed at less than the required 400 metres on the approach to the signal (or points or through crossings) beyond the possession, then this will be indicated by a # symbol following the signal or points number quoted in the PROTECTION LIMITS.

NO ITEMS

DETAILS OF WORK ALREADY CARRIED OUT (AR)**EA1160 BETHNAL GREEN EAST JUNCTION TO BISHOPS STORTFORD******SADLERS FPS AT 21M 45CH ELR=BGK**

This FP has been upgraded from the above date to include Red/Green lights to signal to the users of the footpath whether it is safe to cross using the Overlay MSL operating system

The Overlay MSL System is being introduced to the *Anglia* area at UWC (User Worked Crossings) with limited sighting. This system consists of red/green lights that indicate to the user whether it is safe for them to cross railway. The lights are activated by wheel sensors that operate in a similar way to Axle Counters, when they detect a train, they set the lights to red, after the train hits the strike out sensor the lights go to green.

Would all staff please note that, like Axle Counters, using metal tools or simply passing-by within a metre wearing safety boots can cause activation of these sensors, and should be avoided.

If the sensors fail the lights go into dark mode, they will be reactivated by another train passing or can be reactivated through a manual reset.

As no telephone currently users have been informed that during any dark modes please revert to STOP, LOOK & LISTEN – X25 Signage for wrong direction movements to be fitted

(C14826) (C/7392) (18/03/2026) (01)

****WILDES FP AT 21M 02CH ELR=BGK**

This FP has been upgraded from the above date to include Red/Green lights to signal to the users of the footpath whether it is safe to cross using the Overlay Miniature Stop Lights (OMSL) operating system.

The OMSL System is being introduced to the *Anglia* area at UWC (User Worked Crossings) with limited sighting. This system consists of red/green lights that indicate to the user whether it is safe for them to cross railway. The lights are activated by wheel sensors that operate in a similar way to Axle Counters, when they detect a train, they set the lights to red, after the train hits the strike out sensor the lights go to green.

Would all staff please note that, like Axle Counters, using metal tools or simply passing-by within a metre wearing safety boots can cause activation of these sensors, and should be avoided.

If the sensors fail the lights go into dark mode, they will be reactivated by another train passing or can be reactivated through a manual reset.

SECTION D – GENERAL INSTRUCTIONS AND NOTICES

** Items marked thus will not appear in future issues and a note must be taken of them by all concerned
A thick vertical line denotes new or amended items

AMENDMENTS TO OPERATING PUBLICATIONS – Continued**NOTICES & AMENDMENTS BY LINE OF ROUTE CODE****SW210 CLAPHAM JUNCTION TO READING****WANDSWORTH TOWN****FROM MONDAY 30 MARCH 2026 TO SATURDAY 03 JULY 2027**

Train Crews and other staff should be aware of the work taking place at Wandsworth Town Station.

As part of the access for all (AFA) works, temporary hoarding will be placed on platforms 2 (Down Windsor Fast) and 3 (Up Windsor Fast) narrowing the width of the platform in places. In addition, at the country end of the station a temporary scaffold bridge will be constructed that will span the UP Windsor Fast and Slow lines. This will be used by passengers to access platform 4 from Platform 3, due to the closure of the platform 4 staircase.

WEED SPRAYING TRAINS IN OPERATION**FROM MONDAY 9 MARCH 2026 UNTIL MONDAY 31 AUGUST 2026**

In 2026 multi-purpose vehicles (MPVs) and Envu (previously Bayer) trains will be delivering the national train-borne weed spray programme.

If any staff are on or near the line when a Weed Control Train approaches, they should take the following action:

- On the approach of the Weed Control Train staff must acknowledge and move to a position of safety
- Remain in the position of safety; **Make themselves visible** to the Weed Control Train. If the spray operators can see anyone who is working in the vicinity, they will suspend spraying as they pass the site.
- Staff should not 'hide' behind bushes in an attempt to avoid being sprayed. In such cases the spray operators may not see staff and the spray jets are specifically designed to penetrate bushes.

The herbicides deployed by the Weed Control Train are biodegradable, non-irritant and non-harmful at the low concentrations used. In the unlikely event that staff are sprayed accidentally it is recommended that they take the following actions:

- If the eyes have been sprayed, rinse immediately with clean, water for 15 minutes and obtain medical aid if any discomfort is felt thereafter.
- Rinse any exposed skin with clean water and wash with soap and water afterwards.
- Avoid eating, drinking, or smoking until this procedure has been carried out.
- Change any sprayed clothing at the earliest convenient time and retain in a plastic bag for collection.
- Report the incident to the Route Operations Control.
- Should any member of staff be sprayed they may obtain advice from SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
- If you have any medical concerns, please call the non-emergency NHS number – 111.

Should any member of staff require any further information or advice please contact:

SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
