SECTION B - ENGINEERING ARRANGEMENTS.

At or Between	Lines Affected	Remarks
---------------	----------------	---------

Normally, signals are used to mark possession protection limits. Where points have to be used, this will be signified by the suffix "pts".

Detonator protection for possessions arranged under Rule Book Module T3 must normally be placed at 400 metres beyond the protecting signal (or points or through crossings beyond the protecting signal) at the start of the possession and 400 metres on the approach to the signal (or points or through crossings) at the exit from the possession. Where this distance cannot be obtained, the detonator protection must be placed at the greatest distance possible from the signal (or points or through crossings) concerned.

Where detonator protection has to be placed at less than the required 400 metres beyond the possession protecting signal (or points or through crossings) at the start of the possession or protection has to be placed at less than the required 400 metres on the approach to the signal (or points or through crossings) beyond the possession, then this will be indicated by a # symbol following the signal or points number quoted in the PROTECTION LIMITS.

WEED SPRAYING TRAINS IN OPERATION**FROM MONDAY 9 MARCH 2026 UNTIL MONDAY 31 AUGUST 2026**

In 2026 multi-purpose vehicles (MPVs) and Envu (previously Bayer) trains will be delivering the national train-borne weed spray programme.

If any staff are on or near the line when a Weed Control Train approaches, they should take the following action:

- On the approach of the Weed Control Train staff must acknowledge and move to a position of safety
- Remain in the position of safety; **Make themselves visible** to the Weed Control Train. If the spray operators can see anyone who is working in the vicinity, they will suspend spraying as they pass the site.
- Staff should not 'hide' behind bushes in an attempt to avoid being sprayed. In such cases the spray operators may not see staff and the spray jets are specifically designed to penetrate bushes.

The herbicides deployed by the Weed Control Train are biodegradable, non-irritant and non-harmful at the low concentrations used. In the unlikely event that staff are sprayed accidentally it is recommended that they take the following actions:

- If the eyes have been sprayed, rinse immediately with clean, water for 15 minutes and obtain medical aid if any discomfort is felt thereafter.
- Rinse any exposed skin with clean water and wash with soap and water afterwards.
- Avoid eating, drinking, or smoking until this procedure has been carried out.
- Change any sprayed clothing at the earliest convenient time and retain in a plastic bag for collection.
- Report the incident to the Route Operations Control.
- Should any member of staff be sprayed they may obtain advice from SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
- If you have any medical concerns, please call the non-emergency NHS number – 111.

Should any member of staff require any further information or advice please contact:

SCO 24:7 Seasonal Controller 01908 723500 (Option 8)
