SW220 LATCHMERE JN TO KENSINGTON OLYMPIA

SECTION B - ENGINEERING ARRANGEMENTS.

At or Between	Lines Affected	Remarks
---------------	----------------	---------

Normally, signals are used to mark possession protection limits. Where points have to be used, this will be signified by the suffix "pts".

Detonator protection for possessions arranged under Rule Book Module T3 must normally be placed at 400 metres beyond the protecting signal (or points or through crossings beyond the protecting signal) at the start of the possession and 400 metres on the approach to the signal (or points or through crossings) at the exit from the possession. Where this distance cannot be obtained, the detonator protection must be placed at the greatest distance possible from the signal (or points or through crossings) concerned.

Where detonator protection has to be placed at less than the required 400 metres beyond the possession protecting signal (or points or through crossings) at the start of the possession or protection has to be placed at less than the required 400 metres on the approach to the signal (or points or through crossings) beyond the possession, then this will be indicated by a # symbol following the signal or points number quoted in the PROTECTION LIMITS.

SECTION D – GENERAL INSTRUCTIONS AND NOTICES

** Items marked thus will not appear in future issues and a note must be taken of them by all concerned

A thick vertical line denotes new or amended items

AMENDMENTS TO OPERATING PUBLICATIONS – Continued**NOTICES & AMENDMENTS BY LINE OF ROUTE CODE****SW100 WATERLOO TO CLAPHAM JUNCTION/LINFORD STREET****LAMBETH ROAD STRUCTURE 1/A13**

FROM 06:00 MONDAY 6TH JULY 2026 UNTIL 15:00 MONDAY 30TH NOVEMBER 2026

As part of the upcoming repair and strengthening works taking place on Lambeth Road structure (located at 0m1080y on the BML1 line) there will be a number of changes in the surroundings over the upcoming months. From 06:00 on Monday 6th July, there will be a scaffold birdcage installed on the underside of the structure at 0m1080y. Following the birdcage installation, there will be the installation of a top lift within the period stated above which will be installed under a line blockage. Some of the features of this scaffold including the top lift will be visible to drivers above the parapet wall so prior notice is being provided.

There will be no impact to signal sighting because of this work.

(D23931) (07/07/2026) (35)

SO250 BATTERSEA PIER JN TO WILLESSEN WEST LONDON JN

(BEEN REQUESTED TO BE PUBLISHED IN WESSEX WON)

FACTORY LANE BRIDGE

FROM 0250 MONDAY 22 JUNE 2026 UNTIL 0315 MONDAY 07 JUNE 2027

As part of the upcoming refurbishment and strengthening works at Factory Lane bridge (structure 341 located at 0m484y on the FLL1 and 7m00y on the ATL line) there will be some changes in surroundings that drivers need to be aware of.

From 02:50 on 22nd June 2026 until 03:15 on 7th June 2027 there will be access stairs and a suspended crash deck present on the structure that will be visible to drivers on the FLL lines above the parapet wall. This will be installed during possession hours in Week 12. The access stairs and crash deck are static structures that may present a source of distraction to drivers passing over the structure on the adjacent lines.

There is no planned ALO working during this period so drivers just need to be aware of the change in environment once these features are installed. These changes will have no impact on signal sighting and no operatives will be present on the scaffold outside of possession hours.

(D23889) (22/06/2026) (UFN)
